Q2M SOLUTIONS

Brand guidelines

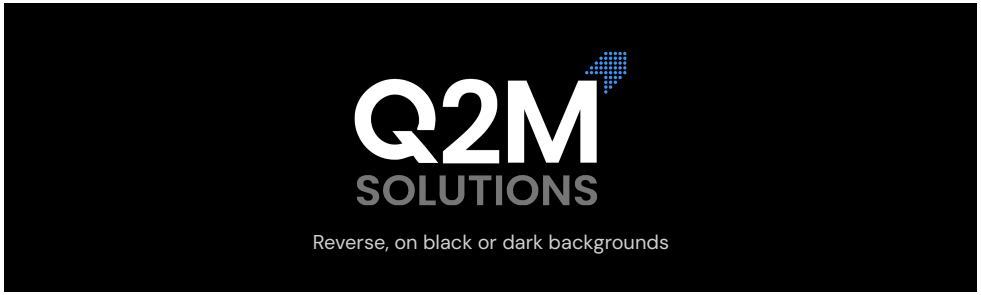

AI agents, automation and smart glasses apps, built in India.

Version 1 · November 2026 · For website, presentation and BTS 2026 booth

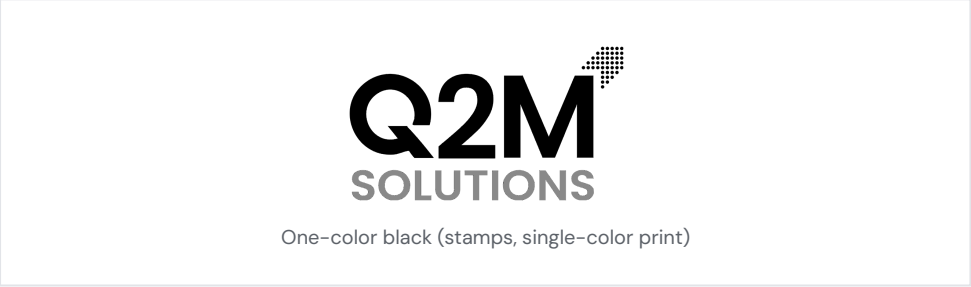

Logo

Color, on white or light grey

Reverse, on black or dark backgrounds

One-color black (stamps, single-color print)

One-color white (on Q2M Blue)

Do

- Keep clear space on every side equal to the height of the "2".
- Minimum width: 96px on screen, 25mm in print.
- Use the color logo on white; the reverse logo on black.

Don't

- Recolor, stretch, rotate, outline or add shadows.
- Place the color logo on photos or busy backgrounds.
- Redraw or separate the dot arrow from the wordmark.

Print note: supplied logos are raster PNG, 826px wide. Fine for screen and A4. For banners and backdrops, use the vector master (SVG, AI or PDF) from the founders.

Color

Black, grey and one blue, taken directly from the logo. One blue per layout. No gradients.

Q2M Black

HEX #000000
RGB 0, 0, 0
C60 M40 Y40 K100 (rich black)

Headlines, body text, Q2M wordmark, dark slabs

Download: fonts.google.com/specimen/Sora · fonts.google.com/specimen/DM+Sans · fonts.google.com/specimen/JetBrains+Mono. Headlines in sentence case. Capitals only for labels.

Graphic device and layout

The dot arrow, repeated as a stepped triangle of round dots pointing up and right. Pitch 16px on banners and slides, 12px on small items. Dot diameter = half the pitch.

Rules

- Use the dot arrow once per surface, in a corner or on a black slab. Never behind text.
- Flat color only. Borders, not shadows.
- Corners: 8px for buttons and cards, 4px for tags and inputs, 16px for large panels.
- Spacing on a 4px base: 4, 8, 12, 16, 24, 32, 48, 64.
- Left-aligned layouts on a 12-column grid. Center only on the booth backdrop.
- Black slabs carry white text and blue dots.

Voice and offer

How we write

- Plain, direct, specific. Short sentences.
- "We" for Q2M, "you" for the reader.
- Say what the system does and what the client gets: "An AI agent that reads claim documents and updates your CRM."
- No hype words (revolutionary, cutting-edge, unlock). No em dashes. No emoji.
- Only confirmed numbers.

Services

- AI smart glasses app development
- Agentic AI and intelligent automation
- AI agent development
- Agentic commerce (ACP/UCP) readiness
- 3D Gaussian splatting
- MLOps
- Microsoft business apps
